## M<sup>2</sup>S<sup>2</sup> - METAL MODULAR SIGN SYSTEMS OVERVIEW

New from Scott! Our new M<sup>2</sup>S<sup>2</sup> - metal modular sign system is constructed of heavy duty extruded aluminum featuring a natural anodized finish for interior or exterior projects. Create complete sign systems including changeable directories, ADA signs to comply and more.

### Snap Lock Frame System

Quickly and easily snap plates into place by pressing them on to the poly channel clips. Flatplates are ready to customize with surface applied vinyl copy or Channelplates accommodate a variety of changeable insert strip materials. See pages 6-7 for product details.

### AlumaFrame & Panel System (Square Corners)

The AlumaFrame System features a variety of signs in an attractive, low profile anodized aluminum frame featuring square corners. Create everything from wall mounted signs with a more permanent installation and double sided hanging, flag mount and post & panel signs using this versatile sign system. See page 8 for product details.

### AlumaFrame & Panel System (Round Corners)

These double sided signs offer a more permanent signage option. Hanging signs and post & panel signs are manufactured featuring rounded corners in an anodized aluminum frame. See page 8 for product details.

## M<sup>2</sup>S<sup>2</sup> SIGN TYPE OVERVIEW

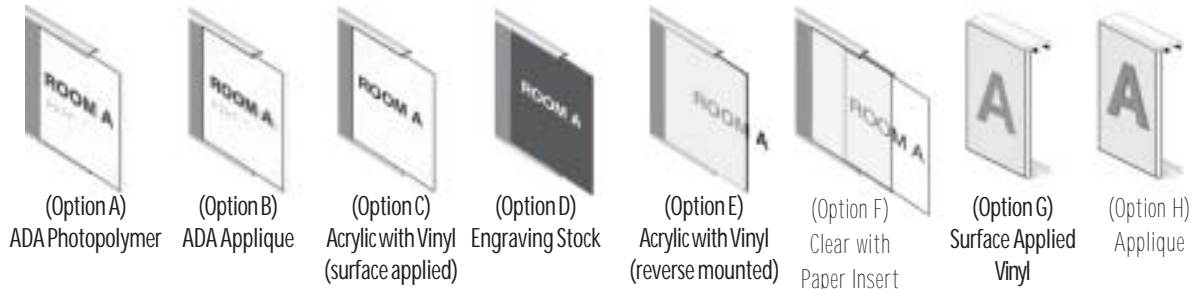

Frame System	Directories	Directionals	ADA Signs	Double Sided Flag Mount	Double Sided Hanging	Post & Panel	Desktop
Sign Type							
Snap Lock	✓	✓	✓	✓	✓	✓	✓
AlumaFrame (Square Corners)	✓	✓	✓	✓	✓	✓	
AlumaFrame (Round Corners)					✓	✓	

Custom sizes, colors and sign configurations are available in all M<sup>2</sup>S<sup>2</sup> sign systems, call or fax (941) 351-1787 for quote.

## M<sup>2</sup>S<sup>2</sup> SNAP LOCK FRAME SYSTEM

### Lettering Options Glossary

Refer to Options A - F for Snap Lock Channelplates lettering options. Refer to Options G - H for Snap Lock Flatplates lettering options.

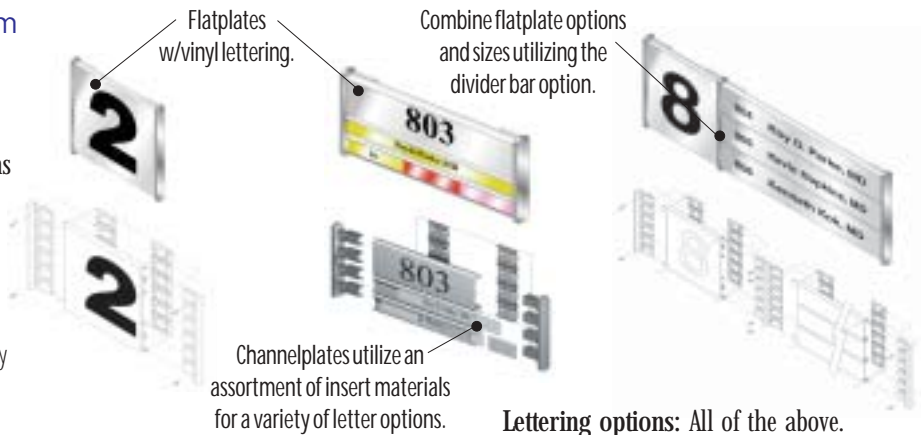

AlumaFrame panel lettering options include all of the above except Option F.

### M<sup>2</sup>S<sup>2</sup> Snap Lock Slider System

For signs up to 8" h we offer our Snap Lock Slider System. This sliding holder system utilizes flatplates and channelplates for a variety of lettering options including ADA signs to comply. Slide the holder end cap to load or unload the plates. To prevent vandalism, a special locking device is available.

Create ADA signs to comply w/photopolymer or ADA applique in channelplates.

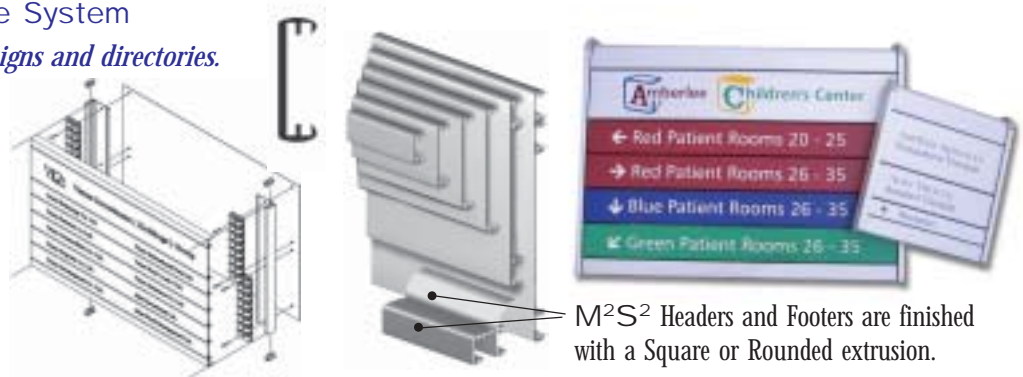

Lettering options: All of the above.

### M<sup>2</sup>S<sup>2</sup> Snap Lock Flatplate System

*Do it yourself with our flatplate signs and directories.*

For signs 8" h and above apply surface applied vinyl copy in-house or on site for updateable directories with upscale appeal. Flatplates also quickly and easily snap into place using the patented Channel Clip system.

Lettering options: G, H

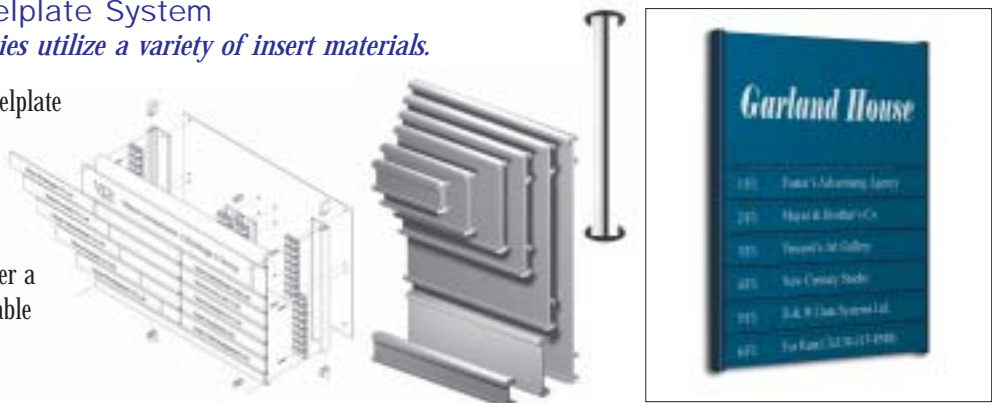

### M<sup>2</sup>S<sup>2</sup> Snap Lock Channelplate System

*Channelplate signs and directories utilize a variety of insert materials.*

For signs 8" h and above our channelplate system holds a variety of insert strip materials for an easily changeable and updateable directory system. Channelplates are far superior to traditional magnetic options and offer a secure, vandal resistant, yet changeable directory system.

Lettering options: A, B, C, D, E, F

## M<sup>2</sup>S<sup>2</sup> DOUBLE SIDED SIGNS

### Snap Lock Double Sided Premium Post & Panel Signs

#### *New Post & Panel signs from Scott Signs*

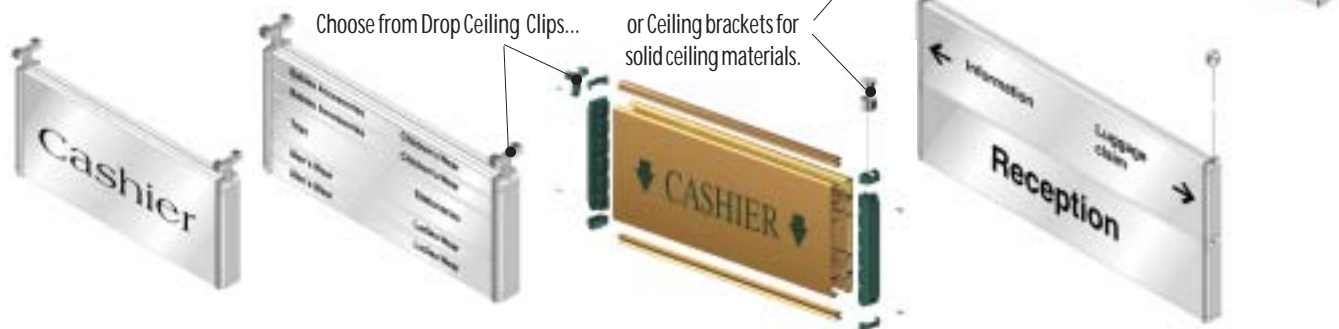

New from Scott! These Post & Panel signs are economical and easy to assemble. Fabricated from all aluminum posts, flatplates, base cap and steel post bases. These signs feature a natural anodized aluminum finish and can be painted any standard or custom color. Flatplates can be quickly and easily updated on-site with surface applied vinyl copy. Round or squared top design standard.

Installation instructions are available upon request or available for download at [www.scottsigns.com](http://www.scottsigns.com).

### Snap Lock Double Sided Hanging Signs

*Complement our Snap Lock or AlumaFrame and Panel System with these attractive anodized metal framed Double Sided signs.*

Faceplates combine with Double Sided end caps for single or multi-line hanging signs up 12" h. Divider bars are also available for a variety of flatplate multi column layouts. **Lettering options: G, H**

### Snap Lock Double Sided Flag Mount Signs

Flatplates and channelplates are available for Double Sided Flag mount signs. Flatplates feature an anodized aluminum finish and can be painted any standard or custom color. Refer to page 6 for Flatplate and Channelplate lettering options. **Standard End Cap Color: Grey**

End caps are also available painted any standard or custom color. Call for quote.

#### Desktop Signs

Desktop signs can be fabricated with flatplates & channelplates for a variety of lettering options and are easily changeable.

**Standard End Cap Color: Grey**

## M<sup>2</sup>S<sup>2</sup> - ALUMAFRAME SIGN SYSTEMS

For a more Permanent sign system option we offer M<sup>2</sup>S<sup>2</sup> AlumaFrames with panels featuring square corners.

This attractive anodized metal frame and plate system is economical, updateable and suitable for indoors or out. Create a variety of sign types including wall mount signs, room numbers, directionals, ceiling and flag mount signs and post & panel signs. Frame and panels can be painted any standard or custom color.

Lettering options: G, H

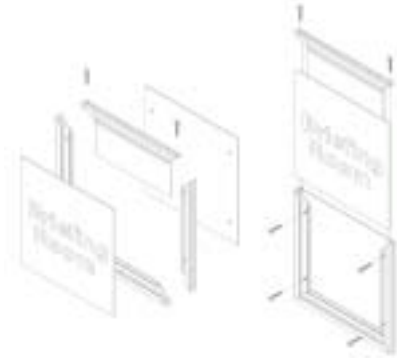

### AlumaFrame Wall Mount Signs - Square corners.

Panels are changeable for future design changes by removing 2 screws from the top of the frame as shown.

Plates are 1/16" thick anodized aluminum, 1/8" acrylic or photopolymer plates are also available for a variety of lettering options.

Lettering options:

A, B, C, D, E, G, H

### AlumaFrame Ceiling, Flag Mount and Post & Panel Signs Square corners.

Ceiling, flag mount and post & panel signs feature double sided construction in an anodized aluminum frame and panel. Heavy duty ceiling hangers and cable included.

Panel Lettering options: B, C, D, E, G, H

Additional plate materials are available. Call for quote.

### AlumaFrame Ceiling Mount and Post & Panel Signs Round corners.

AlumaFrame signs are constructed of an aluminum frame and frame connector with poly corners. Multiple frames and panels can be mounted to this post & panel system. Simply slide the frame connectors into the post channel for a quick and easy assembly. Hanging signs include heavy duty ceiling hangers and cable for solid ceiling installation.

Panel Lettering options: B, C, D, E, G, H

Additional plate materials are available. Call for quote.

# THE HOSPITALITY COLLECTION I - ARCHITECTURAL SIGN SYSTEM

The Hospitality Collection will complement any type of facility - hotels, office complexes, medical or educational facilities. Collection I, II and our new III edition features photopolymer on a decorative backer for ADA compliant options. Informational and directional signs feature subsurface mounted vinyl letters. For this complete upscale sign system just choose your size and color combination. For backgrounds, faceplates and letter/symbol colors refer to page 52 for standard paint colors. Custom colors also available.

The Hospitality Collection I & II feature a backer with a Roman Ogee edge.

Standard Tactile Letter Styles:  
 Caslon, HM

## THE SNAP PLATE® SYSTEM

### Changeable plates mounted within frames. Great for permanent or frequently changed signage.

The 3 part Snap Plate System is vandal resistant yet easily changed. It consists of a frame with a protruding ledge on the inside dimension which houses an insert plate and clear snap plate. Paper inserts are easily enclosed and can be frequently changed, if desired. Vinyl letters and logos are also a great alternative for applying messages. Standard color frames and snap plates without lettering are available to ship in one day.

Frame & Insert Plate Colors:

Standard Sizes: 2" x 10", 4" x 4", 4" x 8", 6" x 6", 6" x 12", 8" x 8", 10" x 10", 8-1/2" x 11"

#### 8.5" X 11" Snap Plate

This unique frame accepts standard size 8.5" x 11" paper inserts for frequently changed or updated signs. Actual frame size 8.75" x 11.25". Standard frame thickness - 5/8" or 3/8" frame available upon request.

Snap Plate Colors: Black, White, Almond, Grey, Clear non-glare, and Painted.

#### Lettering options:

##### Tactile Lettering -

Raised letters and braille are applied to the Snap Plate for ADA compliance. Combining tactile letters with changeable paper inserts is great for meeting room applications. Photopolymer headers can also be applied.

Refer to page 52 for all standard photopolymer background colors and copy/graphic colors.

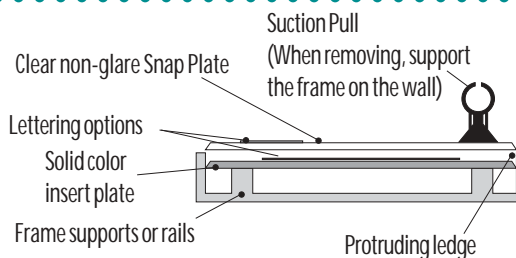

##### Vinyl -

Reverse cut or regular cut vinyl mounted to the clear non-glare snap plate allows the color of the insert to show through and can be combined with paper inserts.

#### Pin Mounting Option -

Great for workstations and temporary signage applications.

#### Paper Insert Sheets -

Paper can be placed between the insert plate and the Snap Plate. Insert sheets may be computer generated or handwritten for frequently changed signing applications.

#### 2" x 10" Inserts -

Perforated papers are also available to fit our 2" x 10" unit - Perfect for cubicles or modular work stations. Template included.

## CUSTOM FABRICATION

Send us drawings with your designs or that of an existing sign system. Scott can manufacture from a wide variety of materials.

## ENGRAVING COLOR SELECTION

SCOTT offers a range of colors and finishes, including sophisticated, natural looking metals from the ROWMARK® engraving and routing material selection. These materials can also be used to produce stunning background panels for plastic and vinyl lettering and graphics. Scott engraved products are great for a low cost sign alternative. For a wider color selection utilize our Matte/Clear Ultra-Matte material for painted color options.

*Engraved signs can be the most economical signs available. They are long lasting and offer a wide variety of color options.*
