

# DIMENSIONAL LETTER MATERIAL OPTIONS

## INTERIOR USE - Pages 30-36

**Metal Micaletters®**  
Page 31  
An upscale metal letter look in a lightweight affordable alternative. Metal laminates are applied to Gatorfoam, PVC Scottcore and acrylic.

**Acrylic Laminate Letters**  
Page 32  
Acrylic laminate letters offer a high gloss acrylic look with a dimensional Gatorfoam or Scottcore backer for dimension at a lower cost.

**Cut Acrylic Letters**  
Page 30  
Cut acrylic letters are decorative and durable, great for interior or exterior use. Standard colors provide a high gloss face.

**Spectraletters**  
Page 32  
A durable, decorative faux marble and woodgrain laminate face with sides painted any color for a variety of color combinations.

**Scottcore**  
Page 31  
Manufactured from recycled wood material, these letters are affordable and extremely durable.

**Gatorfoam® Letters**  
Page 30  
Gatorfoam is a lightweight durable foam with a smooth rigid surface front and back.

**Foam Letters**  
Page 30  
High density foam letters and logos are lightweight and easy to install. Best used in low traffic interior areas.

**Molded Plastic Letters**  
Page 34  
Plastic letters are easy to use and available in a variety of finishes, including the look of chrome or brass.

PREMIUM

## EXTERIOR USE - Pages 37-39

**Metal Letters**  
Page 38  
The ultimate in durability and style. Available in a satin or polished face finish.

**Injection Molded Letters**  
Page 38  
These letters offer the look of perfection with crisp edges in a lightweight, hollow back dimensional letter.

**Vacuum Formed Letters**  
Page 39  
These letters provide a deep dimensional look that is lightweight with rounded edges and hollow backs.

**Cut Acrylic Letters**  
Page 37  
Cut acrylic letters offer a wide variety of letter styles including graphics for exterior use.

**Sign Foam® Letters**  
Page 37  
Sign Foam letters are lightweight, heavy-duty and extra dimensional letters for long lasting exterior applications.

**PVC Letters**  
Page 38  
Letters are cut from a PVC plastic material which provides a long lasting product that can be used indoors or outdoors. Great for custom letter styles and graphics.

**1/8" thick Injection Molded Letters - Page 33**  
Injection molded black or white letters are available in a variety of sizes and letter styles. The most economical alternative for exterior letters.

WHEN ORDERING LETTERS - ALWAYS ORDER LOWERCASE BY THE CAPITAL LETTER SIZE.

Foam, Cut Acrylic, Scottcore, and PVC letter styles may differ from each other due to manufacturing processes.

\*Scott ADA letter styles shown are recommended based solely on our interpretation of the actual ADA laws and ANSI standards existing at the time of print. Scott will assume no liability of ADA compliance. Scott ADA letter styles are not recommended in cut letters.

### ORDER INFO

Please Specify . . .

- Material
- Letter Style
- Thickness
- Size
- Color
- Mounting Method
- Message - Caps or Lowercase
- Mounting Guide Option

### Don't Forget the Mounting Guide

For a more permanent installation we offer stud mounting. Available for Acrylic, PVC, Aluminum or Sign Foam letters. Call for letter style availability.

Spacing Tapes, Coroplast Templates and Stud Mount Templates are available for a quick and easy installation. Installation templates are also available in a variety of materials.

### Recommended Letter Mounting Systems

Letter Material	Mounting Method			
	VHB	Studs	Studs/Pads	Studs/Standoffs
1/8" Acrylic, Aluminum, PVC	X		X	
1/4" Acrylic, Aluminum & PVC Up to 10"h cap height	X	X	X	X
1/4" & thicker Acrylic & PVC Over 10"h cap, 1/4" Aluminum, All Sign Foam		X	X	X

For permanent installations we recommend the use of proper adhesive with all mounting systems shown above. Not all letter styles are available with stud mount due to varying stroke widths. Call for letter style availability.

### Don't Forget the Mounting Guide

A variety of mounting guides are available for a quick and easy installation.

### MOUNTING METHODS - Exterior Injection Molded and Vacuum Formed Letters

**PBO** - Plastic Bracket Outside. These brackets are for uneven or corrugated surfaces and appear outside the letter when mounted. Also for use with wood, metal, concrete block, and plastic.

**Wire** - The stainless steel wire is inserted into an acrylic block cemented to the inside return of the letter. The wire has a small loop on the other end into which screws, bolts, or nails may be used.

**Pad** - The Pad is used in combination with adhesive to mount to surface.

**Stud** - The Stud is drilled directly in the surface and attached to pad inside letter. For use in combination with adhesive cement.

**Combination Mount** - Includes a pad on both ends of the stud for mounting.

**Installation Mounting Templates** - Note: When ordering exterior letters we highly recommend the purchase of a mounting template for ease of installation. Mounting templates must be ordered at the time letters are ordered.

#### Letter Height Visibility Chart

For the most legible sign viewed at the following distances SCOTT Signs offers these suggested letter heights.

Letter Height	Distance
4"	40' - 150'
6"	60' - 200'
8"	80' - 350'
9"	90' - 400'
10"	100' - 450'
12"	120' - 525'
15"	150' - 630'
18"	180' - 750'
24"	240' - 1000'
