

DIMENSIONAL LETTER MATERIAL OPTIONS

INTERIOR USE - Pages 30-36

Metal Micaletters®
Page 31
An upscale metal letter look in a lightweight affordable alternative. Metal laminates are applied to Gatorfoam, PVC Scottcore and acrylic.

Acrylic Laminate Letters
Page 32
Acrylic laminate letters offer a high gloss acrylic look with a dimensional Gatorfoam or Scottcore backer for dimension at a lower cost.

Cut Acrylic Letters
Page 30
Cut acrylic letters are decorative and durable, great for interior or exterior use. Standard colors provide a high gloss face.

Spectraletters
Page 32
A durable, decorative faux marble and woodgrain laminate face with sides painted any color for a variety of color combinations.

Scottcore
Page 31
Manufactured from recycled wood material, these letters are affordable and extremely durable.

Gatorfoam® Letters
Page 30
Gatorfoam is a lightweight durable foam with a smooth rigid surface front and back.

Foam Letters
Page 30
High density foam letters and logos are lightweight and easy to install. Best used in low traffic interior areas.

Molded Plastic Letters
Page 34
Plastic letters are easy to use and available in a variety of finishes, including the look of chrome or brass.

PREMIUM

EXTERIOR USE - Pages 37-39

Metal Letters
Page 38
The ultimate in durability and style. Available in a satin or polished face finish.

Injection Molded Letters
Page 38
These letters offer the look of perfection with crisp edges in a lightweight, hollow back dimensional letter.

Vacuum Formed Letters
Page 39
These letters provide a deep dimensional look that is lightweight with rounded edges and hollow backs.

Cut Acrylic Letters
Page 37
Cut acrylic letters offer a wide variety of letter styles including graphics for exterior use.

Sign Foam® Letters
Page 37
Sign Foam letters are lightweight, heavy-duty and extra dimensional letters for long lasting exterior applications.

PVC Letters
Page 38
Letters are cut from a PVC plastic material which provides a long lasting product that can be used indoors or outdoors. Great for custom letter styles and graphics.

1/8" thick Injection Molded Letters - Page 33
Injection molded black or white letters are available in a variety of sizes and letter styles. The most economical alternative for exterior letters.

WHEN ORDERING LETTERS - ALWAYS ORDER LOWERCASE BY THE CAPITAL LETTER SIZE.

Foam, Cut Acrylic, Scottcore, and PVC letter styles may differ from each other due to manufacturing processes.

*Scott ADA letter styles shown are recommended based solely on our interpretation of the actual ADA laws and ANSI standards existing at the time of print. Scott will assume no liability of ADA compliance. Scott ADA letter styles are not recommended in cut letters.

DIMENSIONAL FOAM LETTERS

GATORFOAM®

High Quality, Lightweight Interior Letter Application

Extremely durable, lightweight foam with a smooth rigid surface front & back. Be sure to order a mounting template and VHB tape for a quick and easy installation.

Letter Styles: Shown on page 29.

Colors: Any standard paint color shown on page 52 or custom paint matched to your specifications.

Standard Thickness:

3/16", 1/2", 3/4", 1", 1-1/2", 2"

FOAM Economical, Lightweight, Interior Letter Application

High density foam is lightweight & easy to install.

Foam letters are best for high visibility in low traffic areas.

For a more vandal resistant lightweight foam letter application refer to Gatorfoam letters or Metal Mica letters.

Standard Thickness:

1/2", 3/4", 1", 2"

Letter Styles: Shown on page 29.

Colors: Any standard paint color shown on page 52 or custom paint matched to your specifications.

CUT ACRYLIC LETTERS

Maximum Durability Indoors and Out.

Cut acrylic letters are decorative and durable. Standard colors provide a high gloss finish for interior or exterior use.

Standard Colors:

Black, White,
Clear Non-Glare,
Painted

Thickness: 1/8", 1/4", 1/2"

Cut Acrylic Two-Tone/Hot Stamped letters

The Two Tone finish is for interior use only - a great alternative to metal for letters 6" and under.

Cut acrylic letters offer a wide variety of letter styles and custom graphics.

For cost effective plastic letters in a limited letter style selection, refer to our molded letters on page 33.

PVC LETTERS

Great for Interior or Exterior Applications with Premium Durability

Letters are cut to your specifications from PVC sheeting. PVC letters have a long lasting appeal, great for interior or exterior use.

PVC letters are only available in a matte paint finish

Standard Thickness:

3mm (1/8"), 6mm (1/4")
13mm (1/2"), 19mm (3/4")

Standard Colors:

Black, White or Painted any standard color shown on page 52 or custom color.

DIMENSIONAL LETTERS, METAL MICA LAMINATES

We neither recommend, nor guarantee Gatorfoam® or foam letters for exterior applications. For exterior foam letters refer to Sign Foam on page 37. Foam, Cut Acrylic, Vinyl, Scottcore and PVC letter styles may differ from each other due to manufacturing processes.
WHEN ORDERING LETTERS - ALWAYS ORDER LOWERCASE BY THE CAPITAL LETTER SIZE.

SCOTTCORE LETTERS *Hi-traffic, Interior Letters with Dimension*

Scottcore letters are a great vandal resistant economical letter application for hi-traffic areas. These medium density fiberboard letters are highly durable & easy to install.

Letter Styles: Shown on page 29.

Colors: Any standard paint color shown on page 52 or custom paint matched to your specifications.

Standard Thickness:

1/4", 1/2", 3/4", 1", 1-1/2"*, 2"*

*Note: These thicknesses are produced by laminating layers of Scottcore.

METAL MICALETTERS® *For an upscale metal letter look.*

MOLDED PLASTIC LETTERS

Plastic letters are easy to use and a great way to add dimension to your sign panels. Available with or without adhesive!

Standard Molded Colors

1 QUICK SHIP Our plastic letters are injection molded in black or white with a high gloss finish on the face and edge and are suitable for indoor and outdoor applications. 1 day quick ship applies to standard color, plain back, 3 day turnaround on adhesive back letters. Note: We do not recommend Stickee® adhesive for exterior use.

Standard Painted Colors

3 QUICK SHIP Painted molded plastic letters can be used for interior or exterior applications. Choose from our standard colors shown on page 52 or we can match most colors to your sample or custom color paint number. 3 day quick ship applies to painted letters without adhesive back. 5 days with adhesive.

Two Tone/Hot Stamped Colors

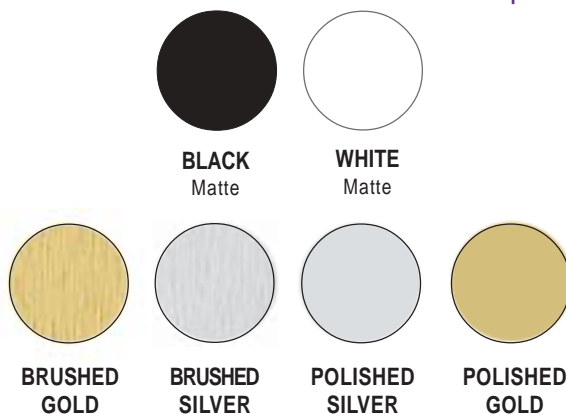

2 QUICK SHIP Interior Two Tone letters have a hot-stamped foil face and a standard color edge (black or white). When ordering two tone letters, always specify the standard base (side) color first and the hot-stamped face color second. Plain back two tone letters will ship in 2 days, adhesive back within 3 days.

For the most legible sign viewed at the following distances Scott offers the following recommendations.

Letter Height	Distance
5/8"	up to 15'
3/4"	up to 18'
1"	up to 24'
1-1/2"	up to 36'
2"	up to 48'
2-1/2"	up to 60'
3"	up to 72'

Standard Interior Two Tone/Hot-Stamped Colors

"Stickee"
TRADEMARK

STICKEE®... Dimensional plastic letters that stick firmly to almost anything - plastic, metal, wood, glass, paper and painted surfaces for interior applications. STICKEE® plastic letters are pressure-sensitive. There are no messy glues or solvent fumes, they may be removed and reused; depending on background material. Please request a STICKEE® letter sample to test on vinyl or "washable" paint surfaces. Vinyls contain "plastisols" that may seriously degrade the adhesive resulting in letters falling or slipping out of place.

A SCOTT Representative will gladly assist you with additional information, or to receive a free sample of our Two Tone/Hot-Stamped finishes, call us toll free 800.237.9447.

METAL LETTER ALTERNATIVES - MLA'S

MLA's are a quick ship item with an elegant appeal - a cost effective alternative to metal letters

Achieve the look of high cost lettering with a low cost option, painted gold or silver letters with a gold or silver hot stamped foil. Mount Metal Letter Alternatives directly to your wall with Stickee® or use with a background or logo panel. SCOTT injection molds quality plastic letters and symbols and applies a unique finish which gives the distinctive look of metal for interior applications. Refer to page 35 for letter style availability.

Colors Available:

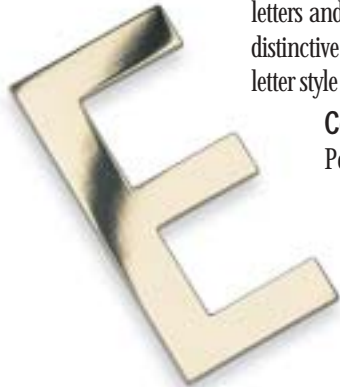

Polished Gold or Silver, Brushed Gold or Silver
- with a painted gold or silver side.

ORDER INFO

Please Specify . . .

Scott-ADA's (1/32" thick)
Style HM
Style 1
Style 3

Individual "A", "Z" or Numeral Sprues are also available. For a detailed list of character quantities per Sprue call a Scott Representative.

Sprues save you money!

The most economical way to purchase plastic letters.

Sprues are individual letters attached to the bar on which they were originally molded. Using a razor knife, simply trim the character from the sprue and remove any excess sprue material from the side of the character for a smooth finish. Available in 1-1/2" and smaller sizes, black or white and with a Two Tone hot stamp if requested. Plain back black or white sprues ship in one day. Plain back Two Tone sprues ship in 2 days. Sprues with adhesive back ship in 5 days.

Individual Sprue Information

Depending on letter style and size, multiple Sprues must be purchased in order to have a complete alphabet including caps, lowercase, numerals and punctuation. Contact your Scott Representative for a complete Sprue breakdown.

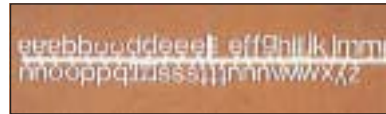

"A" SPRUE

The "A" sprue contains the characters A-N, and depending on the style, may contain periods and/or commas.

"Z" SPRUE

The "Z" sprue usually contains the characters O-Z, however, depending on the style, there may also be additional N's found on this sprue, as well as commas, periods and ampersands.

LOWER CASE SPRUE

Some styles offer lower case sprues which contain a complete alphabet on one sprue, while others, according to size and style, offer an "A" and "Z" lower case sprue.

NUMERAL SPRUE

For a well rounded assortment of numerals in 1-1/2" size and smaller, the numeral sprue is your answer. Quantities of each number will differ according to size and style.

SCOTT-ADA'S - 1/32" THICK MOLDED PLASTIC LETTERS

Scott-ADA's (1/32" thickness, Helvetica Medium style) are designed for compliance with ADA guidelines. Letters and numerals are available on sprues or as individual characters. Standard color plain back letters will ship in one day. Scott-ADA's are not available Two Tone.
